**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1 and 3 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1, for example, which include, a lens apparatus capable of performing serial and parallel communication with a camera body through a serial and parallel communication interface having a selection device which prohibits the serial communication and the parallel communication is performed with a camera body.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
